GENERAL OVERVIEW

The Consumer Level Outcome Measures Report presents outcome analyses for the Client-level Measures for Discretionary Programs Providing Direct Services, or Services Activities, module at the consumer level. The report compares interview information from one interview (Baseline, 1st 6 month reassessment, second most recent) to later interviews (first Reassessment, Discharge, or the consumer's most recent interview). The main difference between this report and the Outcomes Report is that in this report individual consumer level data is reported.

SECTION A: KEY TERMS

Consumer: A consumer is a person who is actively receiving or has received services from a CMHS funded program.

Role: Your role in the TRAC system governs what you can view in the system. Some roles include project director, grantee staff, and government project officer (GPO). The general rule of thumb is that you can run reports for the grant(s) and/or grant program(s) you are associated with. For example, most grant project directors or grantee staff are associated with just one grant and would only see data for the one grant they are associated with.

SECTION B: RUNNING THE REPORT

There are three steps in running the **Consumer Level Outcome Measures Report** in the TRAC system. They are:

1. Navigate to the Consumer Level Outcome Measures Report
2. Select the criteria for the report you wish to view
3. View the report

Step 1: Navigate to the Consumer Level Outcome Measures Report

Select “Reports” on the homepage from the left menu bar.

Select the link for “WesDax TRAC Reports System” in the middle of the screen. The WesDax TRAC Report System will open in a new browser tab.

The screenshot shows the TRAC system interface. The header includes the TRAC logo, the text "Transformation Accountability Center for Mental Health Services", a "STAGING" indicator, and user information: "User: Kristie Taylor Roles: Admin". The left sidebar contains a menu with items: Home, General Info & Training, TRAC Information, Contact Us, Admin, Data Entry, Reports (highlighted with a red circle), Data Download, Change Password, and Logout. The main content area shows the breadcrumb "Home > Reports" and a "Print" button. Below the breadcrumb, the heading "Reports" is followed by a paragraph: "All reports are in the WesDax TRAC Reports System. When you click the link below, the WesDax TRAC Reports System will open in a new tab in your browser. You can return to TRAC by closing the WesDax TRAC Reports System tab. When you return to TRAC, your login may have expired. If that happens, just login again." A link labeled "WesDax TRAC Reports System" is highlighted with a red circle.

The WesDax TRAC Reports system is shown below. Select “Services Consumer Level Outcome Measures Report” on the left menu.

Project: TRAC >> WesDax TRAC Reports

Welcome to the WesDax TRAC Reports

To run a report, select it from the list on the left, then follow the instructions on the screen.

If you need assistance, contact [TRAC Help](#).

For more information, contact TRAC Help at Toll-free: 1-800-458-5273 or TRACHELP@westat.com

NOTE: To run a default report, click “View.”

You can skip step 2, selecting the criteria for your report. You only need to select criteria if you want to customize your report by sorting or filtering it.

Step 2: Select the Criteria (Optional)

You can set several criteria for the Consumer Level Outcome Measures Report. These criteria specify what data will be included in your report.

The following report criteria are available:

- A. Output as
- B. Grant Status
- C. Consumer ID/Exact Match
- D. Assessment
- E. Data Collection Status
- F. Measures
- G. Show Glossary
- H. Grant

The criteria are described in more detail below.

A. Output as

You can have the report output in HTML, PDF, RTF or Excel. The default is PDF.

B. Grant Status

You can run the report for active grants or all grants. Active grants include grants that have not yet ended. “All grants” includes inactive grants, grants that have ended, in addition to active grants. The default is active grants.

C. Consumer ID/Exact Match

You can run the report for an individual consumer by entering the consumer ID in the Consumer ID search box and selecting “yes” for the Exact Match drop down. You can run the report for a group of consumers by entering text in the Consumer ID search box and selecting “No” for the Exact Match drop down. This will return results for any consumers with an ID that contains the search criteria. For example, if you want to see all consumers with “100” in their consumer ID you would enter 100 in the Consumer ID field and select No for the exact match drop down.

D. Assessment

You can compare two interview assessments with the Consumer Level Outcome Measures Report. The options are:

- At Baseline Only-The report will only show data for Baseline interviews. This means there will only be data for the first interview score/response. The outcome improved column will display a dash because improvement does not apply to only the baseline interview.
- From Baseline to 1st 6-Month Reassessment Interview
 - This is the default selection. It compares the baseline interview to the first 6-month reassessment. Since change is most likely to occur between baseline and the first reassessment, this report is likely to show the most change.

- From Baseline to most recent interview
 - This option compares Baseline to the most recent interview, which might be a 6-Month Reassessment or a Discharge Interview.
- From Baseline to Discharge Interview
 - This option compares Baseline to the Discharge Interview.
- From 1st 6-Month Reassessment Interview to Most Recent Interview
 - This compares the first 6-month reassessment to the most recent assessment.
- From 1st 6-Month Reassessment Interview to the Discharge Interview
 - This compares the first 6-month reassessment to the discharge interview.
- From the Second Most Recent Interview to the Most Recent Interview
 - This will compare the two most recent interviews for the consumer.

E. Data Collection Status

You can run the report for assessments that were done within the reassessment window, or for all assessments. The default is within the window.

F. Measures

The report displays data for the NOMs and allows the user to select any combination of measures. The default will display the NOMs.

G. Show Glossary

If this is selected the glossary for the report will show at the end of the report. The default is for the glossary not to be included.

H. Grant

A list of the grants you can run the report for based on your access is shown. By default, all the grants you have access to will be selected.

Step 3: View the Report

Select “View” to view the report.

Please note: The report will open in a new window.

SECTION C: REVIEWING THE REPORT

1

Services Consumer Level Outcome Measures Report

Grant Status: All grants

Consumer ID: ABC1234

Exact Match: Yes

Assessment: From Baseline to 1st 6-Month Reassessment Interview

Data Collection Status: Assessments conducted in window only

Measures: *Healthy overall (NOMs); *Functioning in everyday life (NOMs); *No serious psychological distress (NOMs); *Were never using illegal substances (NOMs); *Were not using tobacco products (NOMs); *Were not binge drinking (NOMs); *Retained in the Community (NOMs); *Had a stable place to live (NOMs); *Attending school regularly and/or currently employed/retired (NOMs); *Had no involvement with the criminal justice system (NOMs); *Socially connected (NOMs)

Show Glossary: No

Selected Program(s): Prog1

Grant(s): SM0001

Data entered as of: January 14, 2014 7:01 AM

***Indicates NOMs Measure**

NOTES:

1. This report is updated once every 24 hours, and includes all data entered as of the time it was last updated. Check the date and time at the top of this report to see when it was last updated
2. A dash "-" alone indicates that the consumer did not have valid data at the interview. Outcome Improved is only calculated if the consumer has a valid response for the outcome measure at both interview time points.
3. Functioning in Everyday Life is considered positive if the mean of the TRAC NOMs questions B2a-B2h is greater than 3.5.
4. No serious psychological distress is considered positive if the mean of the TRAC NOMs questions B3a-B3f is < 13.
5. For MAI-TCE grants, "Were never using illegal substances" the number displayed is the sum of days entered in TRAC for questions B4g-B4t and therefore can be greater than 30.
6. Global Assessment of Functioning is considered positive if the GAF score entered in TRAC is >= 81.
7. Social Connectedness is considered positive if the mean of TRAC NOMs questions G1a-G1d is greater than 3.5.
8. "No Change" under Outcome Improved indicates that the two time points had the same response.

CONFIDENTIAL

Services Consumer Level Outcome Measures Report

Grant ID	Consumer ID	National Outcome Measure (NOMs)	First Interview Score/ Response	Second Interview Score/ Response	Outcome Improved
SM0001	ABC1234	* Healthy overall (NOMs)	Poor	Fair	No
SM0001	ABC1234	* Functioning in everyday life (NOMs)	3.25	4.00	Yes
SM0001	ABC1234	* No serious psychological distress (NOMs)	8	7	Yes
SM0001	ABC1234	* Were never using illegal substances (NOMs)	Never	Weekly	No
SM0001	ABC1234	* Were not using tobacco products (NOMs)	Never	Never	No change
SM0001	ABC1234	* Were not binge drinking (NOMs)	B4b= Never	B4b= Never	No change
SM0001	ABC1234	* Retained in the Community (NOMs)	Yes 0	Yes 0	No change
SM0001	ABC1234	* Stability in Housing: had a stable place to live in the community (NOMs)	Owned or rented house, apartment, trailer, room	Group Home	No
SM0001	ABC1234	* Education and Employment: were attending school regularly and/or currently employed/retired (NOMs)	D3= Unemployed, disable	D3= Unemployed looking for work	No
SM0001	ABC1234	* Had no involvement with the criminal justice system (NOMs, # of arrests in past 30 days)	2	0	Yes
SM0001	ABC1234	* Social Connectedness: were socially connected	3.8	4.5	Yes

SECTION D: USING THE REPORT

What information does the Consumer Level Outcome Measures Report show?

Reading the report from left to right, the report shows:

- The Grant ID
- The Consumer ID
- The National Outcome Measures or NOMs
- The consumer’s score/response at the first interview
- The consumer’s score/response at the second interview
- If the consumer had an improved outcome at the second interview compared to the first interview.

We will use the second outcome, “Functioning in everyday life”, shown in the sample report in Section C to look at the information shown in each column.

Grant ID	Consumer ID	National Outcome Measure (NOMs)	First Interview Score/Response	Second Interview Score/Response	Outcome Improved
SM0001	ABC1234	* Healthy overall (NOMs)	Poor	Fair	No
SM0001	ABC1234	* Functioning in everyday life (NOMs)	3.25	4.00	Yes

- **First Interview Score/Response:** The 3.25 is calculated by adding up the value of this consumer’s responses to questions B2a-B2h and then dividing the total by the number of responses the consumer provided. If this consumer answered all eight questions with a valid response the sum of his/her responses would be divided by 8.

Sample consumer’s responses and scores:

- B2a)** I deal effectively with daily problems: **Undecided (3)**
- B2b)** I am able to control my life: **Disagree (2)**
- B2c)** I am able to deal with crisis: **Agree (4)**
- B2d)** I am getting along with my family. **Agree (4)**
- B2e)** I do well in social situations: **Strongly Disagree (1)**
- B2f)** I do well in school and/or work: **Agree (4)**
- B2g)** My housing situation is satisfactory: **Strongly Agree (5)**
- B2h)** My symptoms are not bothering me: **Undecided (3)**

In this example the calculation would be: (3+2+4+4+1+4+5+3)/8=3.25.

- **Second Interview Score/Response:** The same calculation, as above, would be done for the consumer’s responses at the second interview to get the score of 4.00.
- **Outcome Improved:** This column will display “Yes” if the consumer’s score is higher at the second interview than it was at the first interview. In our example, “Yes” is displayed because the consumer has a score of 4.00 at the second interview compared to 3.25 at the first interview.

THINGS TO REMEMBER / FREQUENTLY ASKED QUESTIONS

- This report should not be used to determine the number of consumers served since it only includes consumers with valid data for at least one of the selected interview time points selected. You should run the Number of Consumers Served Report for this information.
- If you do not change any criteria and simply view the report it will run with the following default filters: Active Grants only, Baseline to 1st 6-month Reassessment Interview, Assessments conducted in window only, NOMS, No Glossary, and All Grants (based on your access).
- If your user account was just created, you may not have access to this report for up to 36 hours.

ACCESSING HELP

For technical support or questions about TRAC, please contact the TRAC Help Desk, located at Westat.

Telephone: 1-888-219-0238

Email: TRACHELP@westat.com

Hours: M-F 8:30 AM – 7:00 PM (EST/EDT)

APPENDIX: TECHNICAL DETAILS

This section describes the items that appear on the report in more detail.

First Interview: The first interview point selected in determining the outcome. The first interview can be the Baseline, the 1st 6-Month Reassessment Interview, or the second most recent interview.

Second Interview: The second interview point selected in determining the outcome. The second interview can be the 1st 6-Month Reassessment Interview, the Most Recent Interview (which can be either a Reassessment or Discharge) or the Discharge Interview.

Score/Response First Interview: The outcome score or response at the first interview point. Refer to the *Table of Criteria* section for details on how each measure is scored. For measures that involve only one NOMs question, the actual response label will be displayed. For measures that involve multiple NOMs questions, the average of all the applicable response codes will be displayed.

Note: A dash (-) alone indicates that the response was not considered valid. This can be because an interview was not conducted for that time point or the response was not valid.

Score/Response Second Interview: The outcome score or response at the second interview point. Refer to the *Table of Criteria* section for details on how each measure is scored.

Note: A dash (-) alone indicates that the response was not considered valid. This can be because an interview was not conducted for that time point or the response was not valid.

Outcome Improved: Indicates (by either a “Yes” or “No”) whether the outcome improved from the first interview point to the second interview point.

- For the NOMs Functioning in everyday life, No serious psychological distress, and Socially connected, Outcome Improved indicates any improvement and does not necessarily mean that the consumer went from negative at first interview to positive at second interview. Therefore, it is possible for the consumer to remain negative – or remain positive – at both intervals and still have the outcome improved.
- For all other NOMs measures, outcome is considered improved only when it changes from negative at first interview to positive at second interview.
- Refer to the *Table of Criteria* section for details on how outcome improved is determined for each measure.
- “No Change” indicates that the response did not change between the two time points.
- A dash (–) indicates that the response for one or both interview points was not considered valid. Therefore, outcome improved could not be determined.

Table of Criteria for Outcomes

The table below shows how specific questions on the Services tool were combined into the summary outcome measures shown on the Consumer Level Outcome Measures Report.

NOMs	Tool Question Numbers and Questions	Valid Case Values	Criterion for Valid Cases	Criteria to be True	Outcome Improved
Healthy overall (NOMs)	Section B: Functioning Adult B1) How would you rate your overall health right now? Child/Caregiver B1) How would you rate your [your child's] overall health right now?	Adult & Child/Caregiver Valid Responses: 1 = Excellent 2 = Very Good 3 = Good 4 = Fair 5 = Poor Non-Valid Responses: -1 = N/A -5 = NOT ASKED ON PREVIOUS NOMS TOOL -6 = NOT APPLICABLE -7 = REFUSED -8 = DON'T KNOW -9 = MISSING DATA	Adult & Child/Caregiver Considered a valid case if any of the "Valid Responses" values is selected. <u>OUTCOME SCORE:</u> - If the case is valid, display the response label under the Valid Responses. - Else, display "-" if the interview was not conducted or if the case was not valid.	Adult & Child/Caregiver Considered to be true if he/she answers <u>any</u> of the following: B1: 1 = Excellent 2 = Very Good 3 = Good All other valid cases are false.	Adult & Child/Caregiver Considered to be an improved outcome if: <u>OUTCOME SCORE at First Interview:</u> Poor or Fair <u>OUTCOME SCORE at Second Interview:</u> Good, Very Good, or Excellent

NOMs	Tool Question Numbers and Questions	Valid Case Values	Criterion for Valid Cases	Criteria to be True	Outcome Improved
<p>Functioning in everyday life (NOMs)</p>	<p>Section B: Functioning</p> <p>Adult B2a) I deal effectively with daily problems. B2b) I am able to control my life. B2c) I am able to deal with crisis. B2d) I am getting along with my family. B2e) I do well in social situations. B2f) I do well in school and/or work. B2g) My housing situation is satisfactory. B2h) My symptoms are not bothering me.</p> <p>Child/Caregiver B2a) I am handling daily life. B2b) I get along with family members. B2c) I get along with friends and other people. B2d) I am doing well in school and/or work. B2e) I am able to cope when things go wrong. B2f) I am satisfied with our family life right now.</p>	<p>Adult & Child/Caregiver Valid Responses: 1 = Strongly Disagree 2 = Disagree 3 = Undecided 4 = Agree 5 = Strongly Agree</p> <p>Non-Valid Responses: -1 = N/A -6 = NOT APPLICABLE -7 = REFUSED -9 = MISSING DATA</p>	<p>Adult & Child/Caregiver The case is only valid if at least 2/3 of the items have a valid response (see: Valid Responses).</p> <p>If 2/3rds of the total number of items is not a whole number, then round-down the number to get the cut-off (i.e., 2/3rds of 8 items = 5.33, so the cut-off would be at least 5 items are needed with valid response to be included as a valid case).</p> <p>OUTCOME SCORE:</p> <ul style="list-style-type: none"> - If the case is valid, display the mean score of the valid responses. - Else, display “-” if the interview was not conducted or if the case is not valid. 	<p>Calculate the mean of the valid case values.</p> <p>Adult Mean = the sum of the valid responses for Questions B2a-B2h, divided by the count of items with valid responses.</p> <p>Child/Caregiver Mean = the sum of the valid responses for Questions B2a-B2f, divided by the count of items with valid responses.</p> <p>Adult & Child/Caregiver True when the mean of the total valid case values is greater than 3.5.</p>	<p>Adult & Child/Caregiver Considered to be an improved outcome if there is any increase in the score from first interview to second interview.</p>

NOMs	Tool Question Numbers and Questions	Valid Case Values	Criterion for Valid Cases	Criteria to be True	Outcome Improved
No serious psychological distress (NOMs)	<p>Section B: Functioning Adult & Child/Caregiver B3a) During the past 30 days, about how often did you feel nervous? B3b) During the past 30 days, about how often did you feel hopeless? B3c) During the past 30 days, about how often did you feel restless or fidgety? B3d) During the past 30 days, about how often did you feel so depressed that nothing could cheer you up? B3e) During the past 30 days, about how often did you feel that everything was an effort? B3f) During the past 30 days, about how often did you feel worthless?</p>	<p>Adult Valid Responses: 4 = All of the Time 3 = Most of the time 2 = Some of the Time 1 = A Little of the Time 0 = None of the Time</p> <p>Non-Valid Responses: -1 = N/A -5 = NOT ASKED ON PREVIOUS NOMS TOOL -7 = REFUSED -8 = DON'T KNOW -9 = MISSING DATA</p> <p>Child/Caregiver Valid Responses: 4 = All of the Time 3 = Most of the time 2 = Some of the Time 1 = A Little of the Time 0 = None of the Time</p> <p>Non-Valid Responses: -1 = N/A -5 = NOT ASKED ON PREVIOUS NOMS TOOL -6 = NOT APPLICABLE, CAREGIVER -7 = REFUSED -8 = DON'T KNOW -9 = MISSING DATA</p>	<p>Adult & Child/Caregiver The case is only valid if at least 2/3 of the items have a valid response (see: Valid Responses).</p> <p>If 2/3rds of the total number of items is not a whole number, then round-down the number to get the cut-off (i.e., 2/3rds of 8 items = 5.33, so the cut-off would be at least 5 items are needed with valid response to be included as a valid case).</p> <p>OUTCOME SCORE:</p> <ul style="list-style-type: none"> - If the case is valid, display the sum of the valid responses. - Else, display “-” if the interview was not conducted or if the case is not valid. 	<p>Adult & Child/Caregiver The sum of the valid answers for B3a – B3f using the point system below:</p> <p>4 = All of the Time 3 = Most of the time 2 = Some of the Time 1 = A Little of the Time 0 = None of the Time</p> <p>Adult & Child/Caregiver True when the sum is < 13.</p> <p>See Appendix B for more information on this criterion.</p>	<p>Adult & Child/Caregiver Considered to be an improved outcome if there is any decrease in the score from first interview to second interview.</p>

NOMs	Tool Question Numbers and Questions	Valid Case Values	Criterion for Valid Cases	Criteria to be True	Outcome Improved
<p>Were never using illegal substances (NOMs)</p>	<p>Section B: Functioning Adult & Child/Caregiver B4c) In the past 30 days, how often have you used... cannabis (marijuana, pot, grass, hash, etc.)?
